

SPS/GZ Reports 100% Client Satisfaction on IRC Section 6039 Compliance Services

Chicago, IL, October 11, 2011 – **Stock Plan Solutions/Green Zapato LLC** (SPS/GZ), a leader in stock administration and outsourcing, is pleased to announce 100% client satisfaction on IRC Section 6039 services from the 2010 tax year.

“We are very pleased with how our team managed the IRC 6039 process for the 2010 inaugural year. We are thrilled to be signing up so many returning clients,” said Mary Pat Wood, an SPS/GZ co-founder and principal.

The survey asked questions on the 6039 process flow, pricing and technology used to help clients comply with Internal Revenue Service’s issuance of final regulations under IRC 6039.

Some of the testimonials gathered are:

“On a scale of 1 to 5, SPS/GZ is a 6! I love working with SPS/GZ. The certified professionals are fabulous, approachable and knowledgeable. We could not have been happier with their service.”

“SPS/GZ’s pricing was highly competitive. We chose SPS/GZ to handle our high volume of 6039 filings and mailings because we were very confident in their credentials and their technology/solution. We tested the SPS/GZ system due to the uniqueness of our plan, and it was a great experience!”

“We were 100% satisfied with SPS/GZ’s comprehensive end-to-end solution. They did a fabulous job overall. It was a well-organized and complete solution.”

“SPS/GZ walked us through every step in the process, validated our data, identified issues, corrected the data and completed all steps in the process on time. They definitely went “above and beyond” by comparing certain information against our SEC filings. They also drafted a comprehensive memo for our large employee population that made these new and complex IRS filing requirements understandable. I would highly recommend them!”

“In a nutshell, SPS/GZ gave us complete peace of mind. We are definitely using them again next year.”

“We have developed a unique, fully outsourced solution to enable companies to complete their IRC 6039 filings and mailings accurately and on time, without incurring penalties,” said Mary Pat Wood. “Our solution is different because it combines a user-friendly, secure portal with great educational materials for participants and expert professional guidance. The fact that professionals with accounting, tax, SEC reporting and stock plan administration experience are reviewing data is really a bonus to our clients!”

The SPS/GZ comprehensive service offering includes professional support through the entire process; compilation and formatting of data into our proprietary template; data review; preparation, electronic filing and mailing of forms; and archival copying of all forms on a disc for optimal record keeping. "Our end-to-end solution combines unsurpassed professional support by CPAs and CEPs with a time-saving, cost-effective process," added Ms. Wood. "IRC 6039 reporting deadlines coincide with yearly or quarterly audits and reviews for most public companies. That is a very busy time for these companies, so they really need to plan ahead."
